

ZOHO One

Zoho One gives you a set of integrated business and productivity applications to run and grow your business. Available for both web and mobile devices, these enterprise-grade tools provide the flexibility to address your most pressing needs across your business. This may include improving your customer experience, creating greater operational efficiency, or fostering higher levels of productivity and collaboration across your organization.

Communication

Mail
Securely hosted, ad-free email for your business.

Cliq
Quick and informal messaging for better team communication.

Support

Desk
A multi-channel help desk that helps you prioritize support requests and make customers.

Assist
Troubleshoot customer issues remotely for quick resolutions.

HR

People
A central place to manage your employees, including managerial approvals, performance management, and more.

Recruit
Find new talent to grow your company. Designed for both in-house recruiters and staffing agencies.

Marketing

SalesIQ
Engage website visitors and convert them into customers.

Campaigns
Create, send, and track effective email campaigns.

Social
Post content, interact with followers, and monitor conversations across social networks, from one place.

Survey
Make informed decisions using feedback from surveys.

Forms
Build forms for lead generation and customer engagement.

PageSense
Optimize your web pages for engagement and conversion.

Backstage
Run successful events.

Business Process

Creator
Turn unique processes into custom applications with our rapid development platform.

Analytics
A business intelligence platform that provides useful insights about your business.

Flow
An integration platform that lets you visually build connections between apps.

Sales

CRM
A multichannel approach to modern sales processes.

Motivator
Improve sales performance through gamification.

Analytics
A business intelligence platform that provides useful insights about your business.

ContactManager
A small business app to manage your contacts and deals until you're ready for a CRM.

SalesInbox
A mail client for sales people.

Sites
Quickly build professional websites.

Finance

Books
Intuitive online accounting software to track the health of your business.

Invoice
Get paid faster with professional invoices that reflect your brand.

Subscriptions
Bill your customers on a recurring or subscription basis.

Expense
Turn receipts into expense reports for quick approvals.

Inventory
A centralized inventory management system for distributed sales channels like retail stores, online shops, or marketplaces like Amazon or eBay.

Checkout
Collect payments online.

Productivity

Writer
A slick online word processor for collaborative work.

Sheet
A collaborative cloud spreadsheet so powerful you'll wonder why you didn't leave your desktop app earlier.

Show
Create beautiful slide decks with ideas from multiple collaborators.

Docs
Store and share files and documents with teammates, partners, vendors, or customers.

Sign
Sign documents digitally and request signatures.

Notebook
A beautifully simple note-taking app to keep your life in order.

Vault
Securely store and manage your teams' passwords.

Collaboration

Projects
Plan, track, and collaborate on projects across teams to get things done.

Sprints
Project management for agile teams.

Connect
A private social network for team discussion and sharing resources.

Showtime
Present slide decks to audiences anywhere and interact with them. Works with PowerPoint too.

Meeting
Browser-based web conferencing to do demos and presentations.

CRM Plus

Zoho CRM Plus is an all-in-one customer engagement suite. It is a bundle of 9 applications and gives your customer-facing teams a 360-degree view of your customers across all touch points to provide a seamless and consistent experience at every stage of the customer journey. With Zoho CRM Plus, you can manage your sales, marketing, and support teams, and project management activities all in one place.
